

Technical specifications and filtration quality :

- ✓ All deliveries are equivalent to NBN / DTD S 65-001:2020, version 1.1 of 28 April 2020.
- ✓ The materials used comply with the REACH regulation 1907/2006.
- ✓ The filtration quality of the recommended paper towels has been verified in the laboratory by Smart Air, a B-Corp certified company in Quebec, and is detailed in the following article: https://quebec.huffingtonpost.ca/entry/meilleurs-materiaux-utiliser-fabriquer-masque-maison-selon-nouvelle-etude_qc_5ea091f5c5b6b2e5b83c24f9
Below is a performance table showing a filtration efficiency of 96% for 1 micron particles, while the Covid-19 would be 3 microns in size.

- ✓ The filtration quality of the recommended paper towels has also been confirmed by a Cambridge University study and further confirmed by Afnor. Link to the full article: <https://www.numerama.com/sciences/618307-masques-faits-maison-contre-le-coronavirus-voici-les-criteres-a-remplir.html>
- ✓ Finally, the use of this material is recommended by Dr. J-L Gala, UCLouvain infectiologist, who even believes that his mask with several layers of paper filter "is more effective than a surgical paper mask". Detail of the article published in La Libre here : <https://www.lalibre.be/planete/sante/pour-le-dr-jean-luc-gala-chaque-citoyen-belge-doit-fabriquer-et-porter-un-masque-5e821a977b50a6162be3810a>
- ✓ The use of a synthetic mask with paper filters to be replaced regularly guarantees optimal filtration without the risk of altering the fibers of a synthetic mask during successive washes.
- ✓ Last but not least, compatible with government filters.
